## DIFFERENTIATORS

- **FOUNDED BY CAREER AVIATION PROFESSIONALS**
- **OUR LEADERSHIP TEAM IS COMPRISED OF FAA CERTIFIED COMMERCIAL PILOTS, AND CERTIFIED FLIGHT INSTRUCTORS IN MANNED AND UNMANNED AIRCRAFT. WE KNOW WHAT IT TAKES TO TRAIN PROFESSIONALS FROM THE GROUND UP.**
- **THROUGH THE MANY LAYERS AND LOGISTICS OF OUR COMPANY PROCESSES, SKYTAP, INC. IS DEVOTED TO CREATING A CULTURE OF EFFECTIVE SAFETY AND PROFESSIONALISM FOR OUR CLIENTS THAT IS ESSENTIAL FOR PROFITABLE LONGEVITY.**

## WHY USE SKYTAP?

- ▲ MITIGATE RISKS TO HIGH-VALUE EQUIPMENT
- ▲ MAXIMIZE VALUE OF ADDITIONAL STAFF, TRAINING, CERTIFICATIONS, AND STANDARDIZATION
- ▲ REDUCE COSTS OF LIABILITY AND HULL INSURANCE
- ▲ SUCCESSFULLY NAVIGATE REGULATORY AND AIR-SPACE REQUIREMENTS
- ▲ ELIMINATE OR MINIMIZE THE TANGIBLE AND INTANGIBLE RISKS OF A FAILED OPERATION THROUGH BUILDING A PROVEN, PROFESSIONAL AVIATION SAFETY CULTURE

## Past Performance

- ▲ SkyTap, Inc. is a growing company. The founders have a combined 30 years of experience in UAS operations in Civilian and Military applications.
- ▲ Our team includes Test Pilots and Standardization Pilots, as well Project and Program managers from some of the most prolific UAS companies in the world.
- ▲ Project management and logistics experience:
  - Site survey and standup
  - Flight and Ground Operations Procedures, Planning and Execution
  - Equipment shipment and emplacement
  - Airspace coordination, certifications, waivers, and authorizations
  - Training management for operators and mechanics
  - Management of over 50 pilots in support of CONUS and OCONUS operations
- ▲ Our team has flown every size of UAS platform from the smallest rotorcraft to large fixed-wing aircraft in the high altitude, long endurance category.
- ▲ We have worked with US Special Forces, NATO and ISAF teams to provide Security Overwatch, Positive Identification, Battle Damage Assessment, Near Border Operations, and Beyond-Line-of-Sight operations.
- ▲ Customers supported
  - Army, Air Force, Marines, Navy, SOCOM, DHS, NATO
- ▲ Complex UAS flight operations in controlled airspace.
- ▲ Research, Test, and Evaluation experience with multiple platforms, payloads, and software integration laboratories.
